Second Soybean Crop Survey was undertaken by SOPA in seven districts of M.P. (Bhopal, Sehore, Raisen, Vidisha, Hoshangabad, Harda & Sagar) which were affected due to excessive rains and water logging.

There is a drop in Yield and Production in these districts. The revised average yield in Bhopal Division is around 790 Kg./Ha., Hoshangabad Division 640 Kg./Ha. and Sagar Division 935 Kg./Ha. Against average yield between 1000-1100 Kg./Ha. in earlier years.

However, there is increase in Yield and Production in other districts due to bigger/bold size of the grain. The **REVISED PRODUCTION ESTIMATE** for Madhya Pradesh is 61.707 Lac Tons against First Estimate of 61.666 Lac Tons.
